

What's Happening in 3 FI

January 31st - February 4th

Français

We will do a quick review of the sight words that were assigned January 11th - 24th:

être, vieux, petit, petite, ans, cet, cette, autour, pour, ici, gros, grosse, jeu, de, mange, manger, monsieur, maintenant, très, dix, chez, jour, faire, veut, veux, vraiment, est-ce que, aussitôt, maison, dehors

**** These words will be assessed this week.**

We will also be working on the following:

- Sound - **an/en/am/em**
- Sight words - **tous, toute, tout, comment, malade, à peu près, bonjour, mon, man, mes**
- Reading strategy (decoding) - **reread the word**

English Literacy

We will be working on our English speaking and listening skills by supporting, questioning and helping each other with our writing.

Math

We will quickly review how to extend number and shape patterns and correctly write pattern rules. We will be moving on to creating our own decreasing shape patterns and creating patterns for given pattern rules.

Students that did not complete their summative assessments for representing numbers to 1000 will also be completing those assessments this week. Once assessments are completed, I will send them home with a sheet attached indicating whether they are **working below, approaching** or **meeting** grade level expectations.

We will also continue working on our basic addition facts to 18. In grade 3, students are expected to be able to show their strategy. I will be doing quick check-ins to see if students can use their doubles, near doubles and friends of 10 strategies to quickly and efficiently solves these questions.

Using Doubles

Problem	My Strategy	Answer
8 + 9	$ \begin{array}{c} 8 + 9 \\ \swarrow \quad \searrow \\ 8 + 8 = 16 + 1 \\ 8 + 8 + 1 \end{array} $	17
5 + 4	I know 5 + 5 is 10, so 5 + 4 is one less than 10	9

Making 10

Problem	My Strategy	Answer
8 + 9	-1 +1	
	$ \begin{array}{c} 8 + 9 \\ 7 + 10 \end{array} $	17
6 + 8	$ \begin{array}{c} 6 + 8 \quad 8 \text{ is } 4 + 4 \\ \swarrow \quad \searrow \\ 6 + 4 + 4 \quad 6 \text{ and } 4 \text{ make } 10 \end{array} $	14

Reminders
