

What's Happening in 3 FI

February 22nd-25th

Français

This week (and probably next) we will be working on the following:

- Sound - oi
- Sight words - *parler, journée, mais, avait, avais, après, heure, personne, pouvoir*

Cross-Curricular Block/Social Studies

In Social Studies, we have been discussing urban and rural areas and the vegetation in New-Brunswick. We will be finishing up our unit by having discussions on how our province is composed of many diverse peoples.

Math

This week I will be assessing the students on solving 2-digit addition problems using mental math. They will need to be able to use the 'making ten' strategy and 'adding from left to right' strategy.

Later this week, I will also begin to assess the students on the meaning of place value with numbers to 1000.

We will begin working on solving 2-digit subtraction problems using mental math.

We will continue working on using strategies to solve addition and subtraction problems for basic facts to $19=8$.
