

What's Happening in 3 FI

March 21st - 25th

Français

This week we will be working on the following:

- Sound - gn
- Sight words - *maman, papa, certain, par, ceci, court, cours, donne, donner, marche, partout*
- Reading strategy (decoding) - look for the cognates or words you recognize in the sentence

Cross-Curricular Block/Social Studies

Students will begin working on their independent writing piece this week. This is a letter to a friend inviting them to New Brunswick. Students will use the information we have learned throughout the Social Studies unit to write their letter.

Math

This week I will be assessing the students on solving 2-digit subtraction problems using mental math. They will need to be able to use the 'making ten' strategy and 'open number line' strategy. Once assessments are completed, I will send them home with a sheet attached indicating whether they are *working below, approaching* or *meeting* grade level expectations.

Later this week, we will be working on estimating using 2-digit numbers. Students are expected to use a strategy when asked to estimate. Below are examples of the three strategies students will be learning:

Strategy	Example
Round both numbers to the nearest 10	$34 + 29$ $30 + 30$
Round one number to the nearest 10, keep the other the same	$34 + 29$ $34 + 30$
Add the two tens together	$34 + 29$ 3 tens + 2 tens = 5 tens or 50
